**URGENT NOTICE – M/V RMS TEAM – Incident in the Black Sea**

Dear Valued Customer,

We regret to inform you that M/V RMS TEAM was subjected to a drone attack while navigating in the Black Sea.

Due to the severity of the situation, the crew was forced to abandon the vessel. A nearby vessel responded to the distress signal and successfully rescued 11 crew members.

Regrettably, one crew member remains missing, and the relevant search and rescue authorities have been notified.

Following the evacuation of the crew, a fire was observed in the vessel's accommodation and engine room areas, which subsequently spread to the container stowage areas.

Based on the information currently available, the vessel and the cargo on board might be considered a constructive total loss.

We are closely monitoring the situation in coordination with the relevant parties and authorities. Further information regarding the vessel and the status of the cargo will be provided as soon as reliable and confirmed information becomes available.

We sincerely regret the circumstances and appreciate your patience and understanding during this situation.

Kind regards,
